rendez-vous lors du salon

Orhopa

du 17 au 19 septembre 2006
à Paris-Nord Villepinte

www.type3.com

Orhopa is an international and professional exhibition in Paris dedicated to jewelers and providers exchanges. **210 exhibitors were attending the show with more than 400 brands represented** from 17 to 19 September 2006.

Vision numeric showed customized demonstration of its software 3DESIGN dedicated to fine jewelry, fashion accessories and watch industry.

During 3 days, the booth was crowded by designers, retailers and even people from education.

Orhopa was also the opportunity to meet our customers and partners.

Dorlet came to present us its new button collection created with 3DESIGN.

Our team who welcomed all those visitors noticed the endless interest that professionals have for the software. Numerous new users ordered the program on our stand.

About VISION NUMERIC:

Established in France in 1988, **Vision numeric's** mission is to bridge the gap between the world of graphic arts and the industrial engraving industry. Marking, identifying and decorating are different needs expressed by professionals. With over 30,000 seats sold worldwide, the **Type3** product family is recognized today by professionals in the Mold & Tools, Sign, Packaging and Jewellery industries as the essential solution, whether they are working in a mechanical, laser, or rapid prototyping environment.
