

## Type3 and 3DESIGN at the Bangkok Gems and Jewelry Fair February 22<sup>nd</sup> – 27<sup>th</sup>

**Bangkok International Jewellery Fair 2005** held its doors opened from February 22<sup>nd</sup> to 27<sup>th</sup>. The recognition of **3DESIGN** as the new reference software solution for jewelry creation was even larger this year after Comgraph, our official reseller in *Thailand*, held a conference at the show. In front of a packed and very enthusiast audience, Wasan Dhanasupsomboon from Comgraph presented **3DESIGN**'s key features, ergonomics and functionalities.

**3DESIGN** received very positive feedback. Contacts our team met on the stand were very interested and showed great enthusiasm towards the most popular functions and wizards. Once again the power of the parametric construction tree and the rendering module impress the most and 3DESIGN is on its way to become the international reference software for jewelry creation.
